

## Own It

Stormzy

Own it, girl, you just own it  
'Cause your body's on fire  
Show me how to control it  
And go hit your spliff and get higher  
Girl, I love how you roll it  
I put my hand there, hold it  
I'ma be right by ya  
I'ma be right by ya  
I'ma be right by ya  
I'ma be right by ya

Lighters up, lighters up  
One time, lighters up  
Pulled up in the party  
When you saw me I was lighting up my J  
So go ahead and brighten up my day  
Lighters in the air when you're lighting up the rave  
And it's feeling like I met you here before  
Girl, I felt your presence when they let you through the door  
Never had a bruddah give you everything and more  
So I take a little piece and the rest of it is yours  
Mi amor, I

E don tey wey I don dey I tell you  
But, girl, you think say nah play  
I know no wetin you dey do me  
Wey just dey scatter my brain

Thug loving when I put you in your place  
I can tell you love it just by looking in your face  
It's the way that you wind up your waist  
I'm so in awe, girl, you never have to worry 'bout nothing  
You know it's yours, you know you

Own it, girl, you just own it  
'Cause your body's on fire  
Show me how to control it  
And go hit your spliff and get higher  
Girl, I love how you roll it  
I put my hand there, hold it  
I'ma be right by ya  
I'ma be right by ya  
I'ma be right by ya  
I'ma be right by ya

Lights down for the one I love  
Right now, we never looked better  
Forget our friends, girl, I love it when we chill together  
And ain't nobody gonna feel how we feel together  
She wanna kiss, I, I want another one  
You got a sick vibe, I wanted more than one  
Up to now, nobody knew where I was coming from  
But we got the same mind  
So I don't wanna waste time, bring it to me  
My, my, that's what I need  
That's right, kissing your cheek  
One time

I used to love being alone but now I can't stand it  
Reaching out my palm for you to put your hand in  
Girl, you are the one and I don't understand it  
How you lighting up the room with your glow?

'Cause girl, you just own it, girl, you just own it  
'Cause your body's on fire  
Show me how to control it  
And go hit your spliff and get higher  
Girl, I love how you roll it  
I put my hand there, hold it  
I'ma be right by ya  
I'ma be right by ya  
I'ma be right by ya  
I'ma be right by ya
