

Come On Now Inside

Stradlin Izzy

Look outside

I think the sun has come back

Look outside

I think it's come again

It's wet and cold

I wish the sun would come back

It's wet and cold

I wish it would come again

It's twenty below

the ground outside is frozen

It's twen Said old man winter's here

*

Come on now inside and warm me up

Come on now inside and warm me up

Come on now inside and warm me up

Today

She woke up

To a coldness from my window

She woke up

To a ray of sun come inty below
