

Drove

Stradlin Izzy

Drove all night into the sunrise
Drove all night into the dawn
Drove all night into the morning
Drove all night into the dawn
Went all the way there, went all the way there
Went all the way there
Heading you give in the, got thru the canyons and
Engine's roaring, firing the night
La la la, la la
La la la, la la
Drove all night into the morning
Drove all night into the dawn
Went all the way there, went all the way there
Went all the way there
This still in burning, high octane journey and
Gearbox crying, thru the night
Went all the way there, went all the way there
Went all the way there
The sunrise's coming up, just pass the ocean
Dust that's poring out, from the way
