I ain't going back and nobody can make me  
I ain't going back cause I'm living clean  
We're living in a bad room self created  
I ain't going back never never scene  
Never again we say  
Never again we say  
Never again they say  
Never again they say  
I ain't going back cause this narrow suits me  
I ain't going back for the shitty food  
We're living in box with a big end doorway

Gotta keep clean it's the golden rule  
Never again we say  
Never again we say  
Never again they say  
Never again they  
I ain't going back cause nobody can make me  
I ain't going back cause I'm living clean  
We're living in a bad room you created  
I ain't going back to a never scene  
Never again we say  
Never again we say  
Never again they say  
Never again they say
