

## Here Before You

Stradlin Izzy

Yeah I was here before you  
No matter what you do  
You think about that first  
Yeah I was here before you

All wound up over nothin at all  
-you gotta reel yourself back in  
You ain't first but ya sure ain't last,  
And that's a call that I have seen  
You're up front in the second heat,  
Ya got your head lined up in check

They're getting ready ta start it  
They're getting ready ta go

Yeah I was here before you  
No matter what you do  
You think about that first  
Yeah I was here before you

Big talk don't mean a lot  
When the final flag comes down  
Yeah who's who at the finish line  
I'm gonna wear that great big crown  
Ya talking bomb, but I'll wait and see  
Who's gonna be there, in the end  
I'm already started  
I'm fired up to go
