

Just Like We Rehearsed

Straight No Chaser

People said we were crazy
We were crazy not to follow our hearts
It's been a long road to get here
But hey, here we are

Didn't ever think
Living on dreams
Knocking on doors, singing for free
Every note the perfect harmony

Just like we rehearsed
We're memorizing every word
We're gonna stand here till we get it right
If it takes all night
We're gonna make our voices heard
Just like we rehearsed

Ooh

A Renault van, another stage
Pocket change, town after town
But it's worth every mile to see
Familiar faces in the crowd, singin' out

From a tip jar in a dive bar
To the dark key, we've come so far
I can't believe that here we are

Just like we rehearsed
We're memorizing every word
We're gonna stand here till we get it right
If it takes all night
We're gonna make our voices heard
Just like we were

Back in the day, all standin' in the kitchen
Learnin' our parts in the parts we were missing
Yeah you take the lows and I'll take the highs
Let's take it from the top and now we're one more time
One more time

Just like we rehearsed
We're memorizing every word
We're gonna stand here till we get it right
If it takes all night
We're gonna make our voices heard
Just like we rehearsed

Come on
