

Quit It

Strand of Oaks

Nevermind the good times
Never mind the bad
Nevermind the come down
Numb it all instead
I've been off my reason
I've been on the road
I keep getting a feeling
I need to go home

Everytime I said I'd quit
Everytime I miss the things I don't need
You got it stuck in my head
I'm sitting right here
Acting like we don't care
I give up my best times for some more

Nevermind the good times
Never mind the bad
Nevermind the come down
Numb it all instead
I miss you

I've been off my reason
I went on the road
I keep getting a feeling
I need to go home

Everytime I said that I'd quit
Everytime that I miss all the things I don't need
You went and got it stuck in my head
And we're sitting right here
Acting like we don't care
I'd give up my best times for some more

Look out for the truck
Sliding into the lane
Head went through the window
I can't get no sleep

I might have won your war [?]
Cause I'm the one you know
You keep me in your hands
I'm laying on the road

Everytime I said that I'd quit
Everytime that I miss all the things I don't need
You went and got it stuck in my head
And we're sitting right here
Acting like we don't care
I'd give up my best times for some more

And I'll stop riding my bike
Just to show her
And I quit
I quit
It's all right
It's all right

It's all right
It's all right
It's all right
