

## Wild and Willing

Strand of Oaks

Somewhere I can live  
Somewhere you are somehow his  
Somehow barely hanging on to the shore  
All the places in my brain  
Places some will say insane  
Places foolishly way out here

And did you hear  
If they canceled the show?  
Wild and willing  
To play songs you know  
I saw 'em last year but they played too long

Admit that he was right  
If you rage every night  
Nobody returns your calls  
An echo on your back  
A slumping second half  
A fucking heart attack  
I fear

And did you hear  
If they canceled the show?  
Wild and willing  
To play songs you know  
I saw 'em last year but they played too long
