

4Eva Timeless (Side A)

Strandz

I know a baddie from uni study physiology
And even she don't really know what's up with me
So many people holla me
I'm 4eva lonely girl I can't give you any company
I'm selfish
Gotta help my self or I'm helpless
I can't accept no face value until I know what's underneath
I got trust issues girl that's probably the tug in me
She talking bout astronomy
And I ain't listening but that's the type of person that I wanna be
You know
Someone that just leaves it for the stars
You know
Someone who I ain't thinking bout their past
You know
Someone with out emotional scars

But we was living fast
Feeling stuck inside this car
Me I don't even trust karma
So if they disrespect you then I'm jumping outta cars ma
You crazy
Looking for a lama
Way before fortnite it's everyday drama
Everyday laughter
Everyday blue lights tell bro to drive faster
Bro he Turnt farmer
Living in crop house
I'm hearing chickens waffling pull up to the laagahs
Niggas tryna cop out
But you'll turn target in the hood if them
Niggas hear you soft now
I'm Fully Lidge I got out
But if I see the rally imma duss out
The police never liked me there just ain't a lot of trust now
I told my trap niggas please just have a plan
There's more to life than flying Amsterdam
Told bro we living in a zoo don't end up in can
But he don't give a monkeys an Otangutan
I'm tryna be a family man
Baby seats in the Tesla
Fully Lidge and driving like a scammer man
I get it how I live it
And I don't ask for nothing but I give it
And if I can't get it imma lick it
Niggas claiming beef like who's this kid
I swear it make em livid
