

Walk In The Fire

Strangeways

I hold you close beside me
But in my heart I wonder
How can I, be strong
These endless nights are way too long
How can I say it's over
How could I ever leave her
Why would I lie, tonight
If only my love could make it right

I want to walk in the fire (walk in the fire)
I feel the heat as your heart beats next to mine
Touching your body, still makes me burn inside

I realize I need you
I can't believe I hurt you
Why should I lie, tonight
We only need love to make this right

I want to walk in the fire (walk in the fire)
I feel the heat as your heart beats next to mine
Touching your body, still makes me burn inside
Burn inside

Walk in the fire

And as I walk in the fire (walk in the fire)
I feel the heat as your heart beats next to mine
Touching your body still makes me burn inside
I want to walk in this fire (walk in the fire)
I feel the heat as your heart beats next to mine
Touching your body, makes me burn inside
Makes me burn inside
Walk in the fire
I feel the heat of your body
