

Dreamtime

The Strangers

The only way for us to be alone
Into the earth and in the stone
When you wanna be on your own, is dreamtime

I am there in the rock
From the start of the total clock
All of my dreams can interlock, in dreamtime

To be there everyday
Letting curiosity point the way
Never felt I had a pleasant stay, in dreamtime

The sites are there before the eyes
History is crystallised
Every place has got a special size, in dreamtime

We won't have to touch [x2]
We won't say too much
The only thing for us to do
Is walk about and then appreciate the view
