

In One Door

The Strangers

Take me to another planet
You better take me to another world
I can't abide all the coming and going
And what's gonna be unfurled
Take me to a distant country
Bathe my joins in exotic oil
I can't abide all the fussing and fighting
And all the wasted toil
And all the wasted toil
In one door and out the other
It's just like a joke that you heard before
In one door and out the other
I just can't wait to see what's in store

Take me to a place forgotten
And I'll forget what I'm doing there
For just one hour I could give a lifetime
I'd love to stand and stare
Take me and I'll close my eyes
I won't open them until we get there
I've seen all the stations on the way
When I stumbled everywhere

In one door and out the other
It's just like a joke that you heard before
In one door and out the other
I just can't wait to see what's in store

In one door and out the other
In one door and out the other
In one door and out the other
In one door and out the other
In one door and out the other
In one door and out the other
In one door and out the other
In one door and out the other
In one door and out the other.
