

## Relentless

### The Stranglers

The ending of the day  
brings the calm that you've been waiting for  
You can't wait to close your eyes,  
fall into the black and disappear.

Me I've always found it hard  
switching off my head  
and tuning out the noise.

If there's a better way  
i'm all ears tell me now  
If I could turn back the days  
and the years  
I'd do it now (that's my vow).

Relentless time (got to find a way to face it)  
Relentless time.

Days whether good or bad  
chase the months away  
Peeling off the calendar  
And us, all that we can do is  
dig down into the night best we can.

I saw my love today  
she's looking old but so am I  
I wonder if she could say how long it's been  
since that smile (quite a while).

The king sat upon his throne waved his hand at the sea  
Time made a fool of him and everything he tried to be (same with me).
