

Around the Bend

Strata

Goodnight, sleep tight
Keep dreaming everything's alright
Believe what you need
If it's good for your peace of mind

I lie awake staring at the ceiling
Trying to fight the feeling
Something really bad's about to happen
I've got this crippling anxiety
Riding me, fighting inside of me
While society's rioting

Something's coming 'round the bend
Something savage, something tragic
Something's coming 'round the bend
Is this the end coming 'round the bend?

Heart racing, chest pains
Don't say it's only in my mind
Close my eyes tight
Hate how this happens every night

I lie awake staring at the ceiling
Trying to fight the feeling
Something really bad's about to happen
I've got this crippling anxiety
Riding me, fighting inside of me
While society's rioting

Something's coming 'round the bend
Something savage, something tragic
Something's coming 'round the bend
Is this the end coming 'round the bend?
I've got this sick uneasy feeling
Something's coming 'round the bend
Something's coming 'round the bend
Something's coming...

Something's coming 'round the bend
Something's coming 'round the bend
Something's coming 'round the bend
I've got this sick uneasy feeling
Something's coming 'round the bend

Good night, sleep tight
Keep dreaming everything's alright
Keep dreaming everything's alright
