

Before the Fall

Stratovarius

Judging by your handshake
And your creepy smile
You do whatever it takes to reach your goal
Your way of manipulation
You're doing that with style
All is planned out, you're in control

What you've done
And what you've become, the deceiver
All the lies that we believed
Now the truth will be revealed
And your illusion dies with you

Before the fall
You had it all
You told your lies
And got your prize
Lived for the fame
Enjoyed the game
Your heart is full of hate, now you met your fate
Before the fall

Building up your empire
All the dreams you sold
You showed me heaven, dragged me into hell
Power thirsty vampire
With promises of gold
A toxic liar, i'll break your spell

What you've done
And what you've become, the deceiver
All the lies that we believed
Now the truth will be revealed
And your illusion dies with you

Before the fall
You had it all
You told your lies
And got your prize
Lived for the fame
Enjoyed the game
Your heart is full of hate, now you met your fate
Before the fall

Before the fall
You had it all
You told your lies
And got your prize
Lived for the fame
Enjoyed the game
Your heart is full of hate, now you met your fate
Before the fall

Before the fall
You had it all
Before the fall
You had it all
