

Millenium

Stratovarius

More that I live More clear it's each day We got to change our ways

There is no way to go back anymore Eons rumble through space We must find new ways to live I know there's so much more to give

Millennium - Where do we go?

Millennium - Time will show

Forevermore - The light will be guiding our journey

Millennium - Show us the way

Millennium - To the new day

Forevermore - Give us a chance to change

People may come and people may go But dance of time is eternal What is the meaning of this cosmic play?

Will we see another day?

We must find new ways...
