

# Soul of a Vagabond

Stratovarius

Pack on my back I wander  
Over mountains across the seas  
My yearning soul keeps roaming  
In the endless search for peace

Sky is my roof, my shelter  
Stars shine and light my way  
Earth is my bed, my altar  
On this road that leads to nowhere

In silence I scream but no one listens to me  
Absolution, salvation, my sins won't leave me be  
The first cry, the last breath  
We are born to die  
This madness never ending  
Don't know the reason why

Soul of a vagabond  
Illusion, delusion, we are born to live  
Temptation, damnation, starvation, deformation

The road goes on forever  
It's an old and trustworthy friend  
I have tasted it's dust and treasures  
But my twisted mind won't mend

My burden is heavy to carry  
My destiny lies ahead  
My spirit is always leaving  
For this road that leads to nowhere

In silence I scream but no one listens to me  
Absolution, salvation, my sins won't leave me be  
The first cry, the last breath  
We are born to die  
This madness never ending  
Don't know the reason why

Soul of a vagabond  
Illusion, delusion, we are born to live  
Temptation, damnation, starvation, deformation

In silence I scream but no one listens to me  
Absolution, salvation, my sins won't leave me be  
The first cry, the last breath  
We are born to die  
This madness never ending  
Don't know the reason why

Illusion, delusion, we are born to live  
Temptation, damnation, starvation, deformation

In silence I scream but no one listens to me  
Absolution, salvation, my sins won't leave me be  
The first cry, the last breath
