

California Day

Strawberry Alarm Clock

Well, it's a California day, yeah, baby
And it's a good-lookin' mornin' outside
So don't be so down-hearted
We'll make it here okay
We'll make love in the sunshine
On a California day, yeah, baby

Well, it's daylight across the valley now, girl
Yes, it's comin' through the roof and shinin' in your hair
Girl, I know you're disappointed
But don't keep it all inside
Just open up your window, girl
The day will make you high, yeah, baby

Well, we can move on down the highway and start a new life, yeah
h
We could be out of state by nightfall, that's for sure
But the day would come, I know it
We couldn't stay away
We'd head back down ol' 99 on a California day

Day would come, I know it
We couldn't stay away
We'd head back down ol' 99 on a California day (California day)
(California day) It's a California day
(California day) Sun keeps shinin' my way
(California day) Hey, hey
(California day)
