

F Song

Strawberry Guy

Well I know you're not there now
And I know you really care somehow
She said he does love you
But, well, hey, that's nothing new

Don't waste time
You'll never look back
Don't go there alone
Just don't waste time
You'll never look back
Don't go there alone

And I know that he won't see
So I spoke up and they told me
Just move on, you won't need them
So shut your eyes and count to ten

Don't waste time
You'll never look back
Don't go there alone
Just don't waste time
You'll never look back
Don't go there alone

I knew that you looked at me
I never really saw you as proud (Oh, no)
You're never really there for me
You never gave me much of a crowd (Oh, no)
I knew that you looked at me
I never really saw you as proud (Oh, no)
You're never really there for me
You never gave me much of a crowd (Oh, no)
