

Stay In This Moment

Strawberry Guy

I felt a ray coming my way
It bounced back in human form
It moulds to its environment
It just artistic temperament
But I feel so good, so good

I've got to stay in this moment
Stay in this moment
I've got to stay in this moment
Stay in this moment

It seems so unattainable
First glance says I'm not enough
It comes from the deep end
To my soul it came to mend
But I feel so good, so good

I've got to stay in this moment
Stay in this moment
I've got to stay in this moment
Stay in this moment
