

Without You

Strawberry Guy

Do you really have to talk about the things
You do with him?
Do you really have to talk about it love?
Do you really have to talk about the way
That you love him?
Do you really have to talk about your love?

Living my life without you
Living my life without you

Did you really have to do those things you
Knew that could hurt me?
Did you really have to do those things to me?
But I know that I can't be the one you love
That's in your life
But I know that I can't be the one you love

Living my life without you
Living my life without you

Where will I go? (Where will he go?)
I'll travel home (He'll travel home)
When will I know? (When will he know?)
