

# Another Day Without You

Strawbs

Old School Songs

We were young  
Our hopes were high  
Our sights were set  
On the terra nova  
Now it's over  
I can't bear to spend  
Another day without you.

We set sail  
On a changing tide  
When the glass was down  
And the moon was mellow  
Lucky fellow  
I can't bear to spend  
Another day without you.

We were drifting as the days turned into night  
The sky sent up a signal in the fiery Northern light  
I can't bear to spend another day without you.

I was broken and I doubted I would last  
The clouds had gathered quickly now the final die was cast  
I can't bear to spend another day without you.

The storm came up  
As the sun went down  
I was all at sea  
On the raging ocean  
Such devotion  
I can't bear to spend  
Another day without you.
