

## That's Messed Up

Stray Cats

Well that's messed up, I cried all night  
You did me wrong, you did it right  
You knocked me out with just one look  
I got rocked, I got shook  
You hit me with your crazy love  
Ooh, that's messed up

Well, that's messed up 'cause it's true  
When my dough ran out so did you  
I'm a wreck, can't you see  
You're the chick that made a fool of me  
I'm still wild for your crazy love  
Ooh, that's messed up

That's messed up  
I toss and turn  
That's messed up  
I got burned  
That's messed up  
My head is spinning round  
Messed up since you put me down

Well that's messed up, I can't think straight  
I'm thinking 'bout our last date  
We got close when they played  
Don't be cruel, true love ways  
And now I lost your crazy love  
Ooh, that's messed up

Well, that's messed up  
I toss and turn  
That's messed up  
Well I got burned  
That's messed up  
My head is spinning round  
Messed up since you put me down

Well that's messed up, I can't think straight  
I'm thinking 'bout our last date  
We got close when they played  
Don't be cruel, and true love ways  
Now I lost your crazy love  
... oh, that's messed up
