

# When Nothing's Going Right

Stray Cats

When nothing's going right  
And you just can't read the signs  
Sometimes things go south  
And you try and walk the line  
You thought you had some money  
And you found out your in debt  
You've been moving down the one way road  
Driving t'wards regrets

When nothing's going right  
When nothing's going right  
When nothing's going right  
Go left

Girl you found a diamond ring  
But it fell into the drain  
You just can't get it out girl  
And you won't see that again  
You need a lucky penny  
And you need a rabbit's foot  
To find the four leaf clover  
Girl you really gotta look

When nothing's going right  
When nothing's going right  
When nothing's going right  
Go left  
Go left

Sat down at the table  
Check your hand and place your bet  
You think you're feeling lucky  
But you haven't won it yet

When nothing's going right  
When nothing's going right  
When nothing's going right  
Go left  
Go left  
Go left  
Go left  
Yeah!

You sat down at the table  
Check your hand and place your bet  
You think you're feeling lucky  
But you haven't won it yet

When nothing's going right  
When nothing's going right  
When nothing's going right  
Go left  
Go left  
Go left  
Go left
