

# Can't Help Myself

## Stray from the Path

Praise the lord, my savior, so toxic  
Death wish, rocking to the bottom, can't stop it  
Got that good shit bagged in my pocket  
Send me to sky till it burns all the oxygen  
You ever watch a friend  
Take a walk down an alley, never seen again?  
Nose leaking to the chin, itching between the toes  
Too late to save ya  
That's how the story goes

I can't help myself  
Let it in, let it out  
I can't help myself  
But fuck the easy way out  
I can't help myself  
Breathe it in, breathe it out  
I can't help myself  
Man, but fuck the easy way out

"He was such a good boy, he never hurt anyone but himself."

Comin' down from the clouds and I'm all out of options  
100 proof potions lace me up with neurotoxins  
ICU, ooh, another fuckin' doctor  
Hit me with that script, be my problem solver  
Problem causer, hook line and sinker  
Relapse a little quicker  
Burn me up like ether  
And for all my people  
That love me unconditional  
Gotta let me go  
That's how the story goes

I can't help myself  
Let it in, let it out  
I can't help myself  
But fuck the easy way out  
I can't help myself  
Breathe it in, breathe it out  
I can't help myself  
Man, but fuck the easy way out

You crawl out or you don't  
This world will swallow you whole  
Everybody leaves if you let em  
Sometimes you gotta let em go

And if you love me, know I tried  
You don't have to stand at my graveside  
Goodbye  
Goodbye

Is this too heavy for you, mom?  
You never knew what to say  
It's not your fault that I turned out this way  
You gotta let me go, that's how the story goes
