

## Loudest in the Room

### Stray from the Path

Greatest country in the world?  
What the fuck do you mean?  
(What the fuck do you mean?)  
Greatest country in the world?  
Agree to disagree

Fabric won't define me  
(No, fuck that)  
March behind it blindly  
(Won't be doing that)  
Grab hold the flag pole  
Grip tight and squeeze  
Wave that flag that was made overseas

The loudest in the room  
Leads us to our doom  
Self-determined to self-destruct  
Unaware of your damage, you close-minded fuck  
Ha!

Greatest country in the world?  
What the fuck do you mean?  
(What the fuck do you mean?)  
Greatest country in the world?  
Agree to disagree

The first step in solving a problem is knowing there is one  
(Lord knows there is one)  
Taught to take pride in shit that's not yours  
How could you hate someone that you've never met before?

The loudest in the room  
Leads us to our doom  
Self-determined to self-destruct  
Unaware of your damage, you close-minded fuck

Join or die  
I won't pick a side  
Won't lay down my life on an invisible line  
Join or die  
I won't pick a side  
Pledge no allegiance  
Join or die  
I won't pick a side  
Won't lay down my life on an invisible line  
Join or die  
I won't pick a side  
Pledge no allegiance
