

# May You Live Forever

## Stray from the Path

I tried  
Peace to my enemies  
Peace to my enemies  
Peace to my enemies

Just to  
Save my serenity  
Save my serenity  
Save my serenity

I tried  
Peace to my enemies  
But deep inside I wish a motherfucker would  
Test me

We can do the dance all night  
Outcast kids running wild in the moonlight  
We can do the dance all night  
Outcast kids running wild in the moonlight

Blacklisted  
The world put a target on my back  
And in an instant  
I went from falling in line to falling off the track  
Oh I found the difference  
In justified rage displaced in depressive states now  
I'm on the attack  
And if you stand in my way better pray you can stand the impact

I tried  
Peace to my enemies  
Peace to my enemies  
Peace to my enemies

Just to  
Save my serenity  
Save my serenity  
Save my serenity

I tried  
Peace to my enemies  
But deep inside I wish a motherfucker would  
Test me

We can do the dance all night  
Outcast kids running wild in the moonlight  
We can do the dance all night  
Outcast kids running wild in the moonlight

Keep the tribe tight  
The circle gets smaller  
As the days grow older  
Props to my people  
The world is cold  
But we grew colder  
It's always fire with fire  
Burn like kerosene

The world will forget you but you will always remember me

No peace  
No peace for my enemies  
No peace  
No peace for my enemies  
Test me

No peace for my enemies  
No peace for my enemies  
Test me

We can do the dance all night  
Outcast kids running wild in the moonlight  
We can do the dance all night  
Outcast kids running wild in the moonlight
