

Needful Things

Stray from the Path

The one goes out to all the soul survivors
Soldiers of war reborn
Lord knows they can't retire
Cut em no slack broken backs
Built the lost empire
That pain was forged in fire
The truce has long expired
(Are you in or in the way?)

Heaven rests in a 357
Push em far enough lord knows they'll send em
To a plane of existence
Reserved for the vicious
I'm wise to the wicked
When the wish list becomes a hit list
The curse is lifted

Are you in or in the way?
Are you in or in the way?
Are you in or in the way?
We want tomorrow so fuck your yesterday

Cut in line
Cut em in
Slice the pie razor thin
It's never free but it's half the price
They're getting by but they don't got the life

You got the grip but they don't love you
You tangle the truth so they don't trust you
The beast in the mirror it becomes you
Look em square in the eye and say fuck you

Are you in or in the way?
Are you in or in the way?
Are you in or in the way?
We want tomorrow so fuck your yesterday

Are you in or in the way?
Are you in or in the way?
Are you in or in the way?
We want tomorrow so fuck your yesterday

Heaven rests in a 357
Push em far enough lord knows they'll send em
Heaven rests in a 357
Push em far enough lord knows they'll send em
Bang

When the wish list
Becomes a hit list
The curse is lifted
The curse is lifted

Picket signs
On the other side of
Picket fences

Weaponize defend the defenceless

The kids are coming for you
The kids are coming for you
The kids are coming for you
Are you in or in the way?

Are you in or in the way?
Are you in or in the way?
Are you in or in the way?
We want tomorrow so fuck your yesterday
