

Neighbourhood Watch

Stray from the Path

Caught ya locking up the windows
Must be a cold day in hell
It's time to take the L
And I'll lend ya no sugar
Only salt for the slugs
Watch 'em crawl right back into the hole they dug

No love for leeches
Who split the streets in two pieces
My conscience tells me to peace it
Don't beef it
But I can't sleep
When they're wearing the sheets in the precincts

You didn't hide it
So don't deny it
You call it righteous
We call it whiteness
You didn't hide it
So don't deny it
You call it righteous
We call it spineless

No more no more
Don't come knocking at my door
No more no more
Don't come knocking at my door
No more no more
Don't come knocking at my door
No more no more
Don't come knocking at my door

We see the real you sorry to say but we don't feel you
You let 'em shuffle you up and now they'll deal you
No turning back not even if you play your cards right
Can't flip a coin and expect to see the other side

You didn't hide it
So don't deny it
You call it righteous
We call it whiteness
You didn't hide it
So don't deny it
You call it righteous
We call it spineless

You found identity
In the arms of the enemy
They gave all you motherfuckers a name tag
So now I wanna see blood on the white flag

This is not a safe space
And we never forget a face
Motherfucker

You didn't hide it
So don't deny it

Spineless

No more no more
Don't come knocking at my door
No more no more
Don't come knocking at my door
No more no more
No more no more
No more no more
Don't come knocking at my door
