

Plead the Fifth

Stray from the Path

Man, you can't fix stupid
I tried to hear you out, but you just fucking blew it
Man, you can't fix stupid
Now I think I'm gonna lose it
Yeah, I'm gonna fucking lose it

Shut your mouth, I'm done with you
Pointing fingers, Imma flip one right back at you
Shut your mouth, I'm done with you, uh
Yeah, you're done and the world moves on without you

Point and look 'cause their beliefs come from a different book
Scared and shook about all the lives you think they took
False pride worldwide
Faking texts on every front page and every headline
Take a second, identify the message
Over a hundred hate crimes post-election, yup
Ladies and gentlemen, the court is now in session
Relays red flags while we pledge the one in question

911, this is a not a test
Propaganda pushes terror as a threat
911, this is not a test
Propaganda pushes terror as a threat

Shut your mouth, I'm done with you
Pointing fingers, Imma flip one right back at you
Shut your mouth, I'm done with you, uh
Yeah, you're done and the world moves on without you

False evidence appearing real
(Fear)
Set up the green screen and put a Muslim at the scene
We always take what we want
Yeah, we rob and steal
Every village we bomb
It's just part of the deal, uh
Wait, hold up
I think I'm gonna be sick
You hateful, hateful son of a bitch

Welcome to the melting pot, motherfucker
If you don't like it, then get the fuck out

Yeah, it's written like a script
While the country pleads the fifth
Yeah, it's written and it's fixed
While the country pleads the fifth

911, this is a not a test
Propaganda pushes terror as a threat
911, this is not a test
Propaganda pushes terror as a threat

Man, you can't fix stupid
I tried to hear you out, but you just fucking blew it
Man, you can't fix stupid

Now I think I'm gonna lose it
Yeah, I'm gonna fucking lose it

Shut your mouth, I'm done with you
Pointing fingers, Imma flip one right back at you
Shut your mouth, I'm done with you, uh
