

# Shocker

## Stray from the Path

It's getting old, this shit plays out just like you think (Shocker)  
5000 dollars for those pills that keeps you weak (Shocker)  
Foreclosing families in a blink, no surprise (Shocker)  
Its half and half, you got them fools radicalized (Shocker)  
The bloated whales are always fishing for the prize (Shocker)  
These clergymen are touchin' thighs, you pedophiles (Shocker)  
G-men inside trading that bread, flipping lies (Shocker)  
Police are gunning for your head, run for your life

I got that six six sense  
I'm seeing demons (Demons)  
And when they show you who they are (Who they are)  
You best believe em  
You best believe em  
I got that six six sense  
I'm seeing demons (Demons)  
And those true colors start to show  
When you start bleedin'  
When you stop breathin'

They're hiding skeletons in closets, start the show (Shocker)  
Stay digging graves to see how low they fucking go (Shocker)  
A privatized militarized mind turning rights political  
The game resets back to the left, they fucking go (Go)

Shame on you, I fucking knew it  
Hiding those bodies in basements  
Fuck your two faces  
No sympathy, the beasts are shedding their disguise (Shocker)  
I hate to say it but I'm not fucking surprised

I got that six six sense  
I'm seeing demons (Demons)  
And when they show you who they are (Who they are)  
You best believe em  
You best believe em  
I got that six six sense  
I'm seeing demons (Demons)  
And those true colors start to show  
When you start bleedin'  
When you stop breathin'

Shocker  
Shame on you, I fucking knew it  
Shocker  
Take that mask off man, you blew it  
Shocker  
When we find out where you sleep  
Shocker  
Shit bleeds out just like you think

Lights on in a haunted house  
Last one in, cycles unpredictable  
Hiding skeletons in closets, yeah we know  
Dig that grave, let's see how low you fucking go  
Dig that grave, let's see how low you fucking go  
Hiding skeletons in closets, yeah we know

Dig that grave, let's see how low you fucking go

Let's see how low you fucking go

I got that six six sense

I'm seeing demons (Demons)

And when they show you who they are (Who they are)

You best believe em

You best believe em

I got that six six sense

I'm seeing demons (Demons)

And those true colors start to show

When you start bleedin'

When you stop breathin'
