Young and free there's nothing to fear
Anywhere will be my hideout
Let's go to space Like an astronaut

I'm ready, my backpack is already packed
I stayed up all night, I was too excited to sleep
I'm brave, I'm great
Anything is possible no matter what I do, Okay
Ready Ready steady Let's go now Anywhere

Draw a map as I want, I don't need it anyway
Walk wherever my feet take me, yes, explore
Hop on my spaceship Like an astronaut
That star is drawing near to my hands
Grab it when it's close
We can go anywhere, so go anywhere
We can go anywhere, just hop on my spaceship

Let's go to find the stars without a clue Fly tonight (hey)
Let's go to space Like an astronaut

Even if I land on a strange world
I won't look for the exit (Hey)
I'm not scared of anywhere
I grew out of having the lights on when sleeping (Ey)
