

# Connected

Stray Kids

Got so many questions  
You seek information  
No need to be desperate  
We're just getting started, yeah  
Diamond plated tension  
Two minds, one direction  
Craving the connection  
Patience, babe

We're pulling at each other like magnets  
The rules are telling us to ignore them  
Your moves, they're asking me for attention  
Oh, I'm losing it, hey

No turning back once we're connected  
No turning back once we're connected  
No turning back once we're connected

All that I want is you  
Even if I'm a fool  
Why do I fall for you?  
No turning back once we're connected  
All that I want is you  
Even if I'm a fool  
I know that you want me too  
No turning back once we're connected

Locked in sight, we're in trouble  
A lock and a key making rumbles  
I know you want me, don't crumble  
Leave it to time, no need to hustle  
Meant for each other, no one can stop us  
You know that we'll be lasting forever  
Feel the fire, it's burning up the danger (Yeah)  
You know it shouldn't be but

We're pulling at each other like magnets  
The rules are telling us to ignore them  
Your moves, they're asking me for attention  
Oh, I'm losing it, hey

No turning back once we're connected  
No turning back once we're connected  
No turning back once we're connected

All that I want is you  
Even if I'm a fool  
Why do I fall for you?  
No turning back once we're connected  
All that I want is you  
Even if I'm a fool  
I know that you want me too  
No turning back once we're connected
