Law of total madness

Grrr, my mind is a mess
Even if I'm like a violent ant
I don't care, I'll bark with anger
Leaving behind anyone who doesn't understand
Whether people view me in a good or bad light
It all feels uncomfortable, my frustration level is serious right now
In between mood swings, I'm at war with myself
Adult interference makes me even more restless

My current state, the way I talk, my actions
I know I shouldn't be like this
But everything goes the opposite way
I want you to understand me
I don't know what will happen
Again today, I'm barking

Don't talk to me
Whoever I see, I bark, I bite, I rip apart
Don't talk to me
I'm frustrated, so frustrated
Don't bump into me
After I bite, I'll chew and gnaw
Don't bump into me
Frustrated, frustrated, frustrated

Now I can't even sleep
My pillow should be soft but instead of a cushion
It's a mountain of books
I want strength to break apart this situation
But thousands of push ups don't help
I'm just going through some change

Adults who don't understand think I'm a delinquent
They try but they tire me out
I burn them up and eventually, they fail

My current state, the way I talk, my actions
I know I shouldn't be like this
But everything goes the opposite way
I want you to understand me
I don't know what will happen
Again today, I'm barking

Don't talk to me
Whoever I see, I bark, I bite, I rip apart
Don't talk to me
I'm frustrated, so frustrated
Don't bump into me
After I bite, I'll chew and gnaw
Don't bump into me
Frustrated, frustrated, frustrated

We rolling, we rolling
Till I run out of breath
We growling, we growling
We're turning into a monster again

Like a question without an answer
I can't get rid of my anger
My mind is not normal
I know but take it easy on me
This time only comes once in life
Even if I'm annoying
Just close your eyes on me once

How much more do I have to be lost
How much, how much
A million kilometers
Oh my, oh my, what is this?
Oh my, oh my
A hundred million kilometers

Frustrated, frustrated, frustrated grrr
