## Stray Kids

Tell me something, how much higher can we go from here, we changing the game  
And they all wanna know if this is only a phase  
Don't have the answer but we keep on climbing, breaking boundaries and setting the pace  
And we ain't never gonna stop until the world's our stage

Yeah, you might say that it's impossible  
Stronger together, we'll turn it into probable  
And in the darkest shadows we'll be shining, uh  
So hold on tight 'cause we KO every single fight

I see it clear, the stairway reaching up to the sky  
It seems so far away now  
I'm wondering if I'll ever get all the way to the end  
But it's a risk I gotta take

I'll keep on running all day and night  
'Cause even if it kills me  
Never let you go, never let you go  
I won't give it up until I see the light, I go

No turning back  
Go up

I'm not gonna fall

I'll rise till I reach the sky  
Go up

Never let you go, never let you go  
I won't give it up until I see the light, I go

I don't need no luck, I make my own  
And I ain't even afraid no more  
Yeah, you can try to block my path, I won't take my foot off the gas  
Keep on blazing the trail, follow my dream, I'm straying off the beaten track

Woo  
The clock is ticking and I know that I gotta keep on moving uphill  
It's okay, I'll give it my everything, blood, sweat and tears and I'm all in  
I am who I am, I know that I can win

I see it clear, the stairway reaching up to the sky  
It seems so far away now  
I'm wondering if I'll ever get all the way to the end  
But it's a risk I gotta take

I'll keep on running all day and night  
'Cause even if it kills me  
Never let you go, never let you go  
I won't give it up until I see the light, I go

No turning back  
Go up

I'm not gonna fall

I'll rise till I reach the sky  
Go up

Never let you go, never let you go  
I won't give it up until I see the light, I go

If I ever fall, I'll get up again  
Life can throw me anything, take it step by step  
Locked up in this tower but it's all inside my head  
I got the key, just open up one door and on to the next

One-track minded, I'm gonna clear every last hurdle  
I know that I can do it, oh I've never been so certain  
Destroying every level out there, I'm the most determined  
I'm going to the TOP and I'ma focus on the journey

No turning back  
Don't let go

I'm not gonna fall

I'll rise till I reach the sky  
Don't let go

I'ma run to the TOP and no one's stopping me 'cause I don't give a woah  
Never let you go, never let you go  
I won't give it up until I see the light, I go
