

In Stereo

Street Dogs

We got it

We got time, lets get things moving
shake it up, There are no more rules
It's not something to believe in, just
a little thought and a lot of feeling

You've been told all your life
You'll never get it right
Don't listen to these lies
Because no one controls your life

We all know that time is precious
so don't let it slip away
life is more than a mere existence
we must live it everyday
round and round the world keeps
spinning where it stops nobody
Knows, so open up our ears and
We'll hear the music IN STEREO!

You've been told all your life
You'll never get it right
Don't listen to these lies
Because no one controls your life (2x)

We Got It
