Unions and the Law

Street Dogs

Like Bob said the times are a changing
Unfortunately for us bossman's rearranging
Doesn't care about your wife and kids
But only the gold that is his
Won't hear eleventh hour underbids
Or part with the assets that he thinks are his
Only knows how to downsize
He'll see an increase by losing you

Not even aware that his moral code has died

Unions and the law... What's wrong with being treated fairly
Unions and the law... We've got to defend ourselves somehow

Society's a much faster place now
Seems like protest lost out somehow
I once heard a composer sing
I can't stand up for falling down
Got to rise up and be accounted for
Maybe that sentiment will arrive
Back in town but only time
Itself will reveal this concept

In ending this rant we'll stay idealistic

[Chorus]
Unions and the law... What's wrong with being treated fairly
Unions and the law... We've got to defend ourselves somehow
Unions and the law... They got to come back stronger today
Unions and the law... We've got to defend ourselves somehow

Like Bob said the times are a changing
Unfortunately for us bossman's rearranging
Doesn't care about your wife and kids
But only the gold that is his

[Chorus]
