

Just for You

Streetheart

I'm not going to different
Just for you no
No matter what you say
No what you do
I came here today
It was my choice anyway
And I'm not gonna be different
Just for you

Your sittin' in the corner
Callin' my name
Rock and roll baby
Were all the same, hey
I've got news for you
If there's anything you want me do
You better talk nice cause
I'm lookin' good for you
Yeah

Take your beer and hit the floor
Yellin' and screamin' mamma
Tellin' me you're lookin' for more
Come on over for some laughs
But it's only the other [?]
Just for you

I'm not going to different
Just for you, hey
No matter what you say
No what you do
I came here today
Everything you're gonna say
I'm not gonna be different
Just for you

For, for you, for you, you...
Just for you...
