

Love's Never Wrong

Barbra Streisand

Love's never wrong
No matter who you love
And when you do find love, don't let it go
And always know

That love's never wrong
No matter what they say
Don't ever be afraid to let it show
And let it grow

No one can tell what's right for you
Or how two hearts can be as one
All what you need
What you've done to come this far
But here we are

Yes love's always right
Love always knows the way
When some are just too blind to see the light
You know what's true
Be true to you
'Cause love's never wrong

No one can tell you how to feel
When to reveal what's deep inside
When only truth can be your guide when feeling stuck
Trust in your heart

Oh love, love's always right
Love always knows the way
When some are just too blind to see the light
You know what's true
Be true to you
Be proud, be strong
'Cause love's never wrong
