

Spring Can Really Hang You Up The Most

Barbra Streisand

Spring is here
There's no mistaking Robins
Building nest from coast to coast
(**something here I forget **)
Spring can really hang you up the most

College boys all writing sonnets
In their tender passions they're engrossed
While i'm on the shelf with last years easter bonnets
Spring can really hang youp the most

Love came my way, I hope it would last;
We had our day, now that's all in the past!
Spring came along a season of son,
Full of sweet promise but something went wrong!

Doctors wise prescribed a tonic
Sulpher and molasses was the dose
Didn'thelp a bit
My condition must be chronic
Spring ca really hang you up the most
All alone, the party's over
Old man winter was a gracious host
But when you keep praying for snow to hide the clover
Spring can really hang you up the most
