Always / Never

STRFKR

Must be some way to feel again
Always thought I was on the right side
Now that death's licking at my heels
I don't know what's happened here with my life

What should I remember oh oh oh
Why should I go on like everything's fine
Hot shit in November
No shadow to keep em'
Feeling alive

I want some way to feel again
I wanna live in another time
With my back up against the wall
I don't know what happened here but I'm fine

What should I remember oh oh oh
Why should I go on like everything's fine
Hot shit in November
No shadow to keep em'
Feeling alive

I should've never fallen for it
Somebody who never listened to me
Why that you're wrong when you don't mean it
Why say it you always never

I need something to feel again
I need another who understands
What the fuck am I doing here
I don't know what's happened here with my life

What should I remember oh oh oh
Why should I go on like everything's fine
Hot shit in November
No shadow to keep em'
Feeling alive

I should've never fallen for it
Somebody who never listened to me
Why say that you're wrong when you don't mean it
Why say it you always never
