

# Bury Us Alive

STRFKR

I know,  
Nothing ever keeps you safe for sure.  
No one ever dug down so far.  
We go,  
Where the heroes drop their bones outside.  
No one ever knew I made it.  
No one ever...

Oh, bury us alive.  
Oh, bury us alive.  
Oh, bury us alive.  
Oh, bury us alive.

Below,  
Nothing ever grows up.  
Come to see it through,  
No one even noticed 'til I crawled in slow.  
A new world clouded out the sun.  
No one even lives (Place a touch of  
Death to set me free.)

Oh, bury us alive.  
Oh, bury us alive.  
Oh, bury us alive.
