

I Don't Want To See

STRFKR

Lying awake
Staring at the shadows from the street
All the same
Felt like there was someone watching me
It's okay
Listen to the record on repeat
Still awake
Voices in the air won't let me sleep

Let's turn the lights out
Can't go to sleep
Let's turn the lights out
Don't want to see

There on our own
Always with a stranger watching me
Never alone
I can feel the shadows from the street
It's okay
Didn't want to say it anyway
Lying awake
Waiting for the night to fade away

Let's turn the lights out
Can't go to sleep
Let's turn the lights out
Don't want to see

Let's turn the lights out
Can't go to sleep
Let's turn the lights out
Don't want to see

Always feels like forever
I remember every line on your face
Growing older together
As the summer lighting fading away
