

Even with the lights out  
I'm still feeling nervous  
Keep it to myself  
An island in a furnace  
I don't want to say it  
I just want to lay here  
Always on my mind  
I'd rather we just know it  
Needles when I'm talking  
Nothing feels the same here  
Pull myself together  
While I'm getting older  
I don't wanna to say it  
I don't wanna answer  
Keep it to myself  
Tonight I can't say nothing

Turn off the sound tonight  
The silence was much better  
Look in your eyes a sign  
Our thoughts all blend together  
Quiet and underground  
The feeling was just being  
Nothing but time for us  
Our thoughts all lose their meaning  
Inside a light for us  
The days are getting shorter  
And how I want to stay  
Just send my letters over  
Keeping the sun light out  
Hearts gently beat together  
Nothing was left to say  
The silence is much better

Needles when I'm talking  
Nothing feels the same here  
Pull myself together  
While I'm getting older  
I don't wanna to say it  
I don't wanna answer  
Keep it to myself  
Tonight I can't say nothing  
Even with the lights out  
I'm still feeling nervous  
Keep it to myself  
An island in a furnace  
I don't want to say it  
I just want to lay here  
Always on my mind  
I'd rather we just know it

But I, I don't want to know
