

Never The Same

STRFKR

You look just like your mother
Oh, those pretty brown eyes
How you fight for each other
How could any else smile?
You told me that you keep no secrets
Hide things that were worth it in the end
Yeah, my feelings still haven't changed
They said I'm crazy for it

What I don't know about love
What I don't know about love
What I don't know about love
What I don't know about love
And we were never the same

But you go on livin' forever
I know we were made to die
And when we bury each other
Shake a million meanings at your side
You told me that you keep no secrets
Hide things that were worth it in the end
Yeah, my feelings still haven't changed
They said I'm crazy for it

What I don't know about love
What I don't know about love
What I don't know about love
What I don't know about love
And we were never the same
