

## Satellite

STRFKR

Fall away from the edge of the world  
Where I'm fine on my own  
Felt right alone  
Bled  
White

Soft cell where there's nowhere to go  
There where nobody knows  
Theres nothing at all  
Shadow light  
Shadow light

My thoughts all evil and pure  
Gone away from my own design  
Satellite  
Show me light

I felt so close to a cure  
In a moment of passing time  
Show me light  
Satellite  
Show me light  
Lonely light  
Show me light  
Only light

Slow wave tangled up in a haze  
Of a short faded memory  
Moving down there in front of me  
Relaying  
Repeating

Body rides over the falls  
Where I'm finding my home  
Where theres nothing at all  
Shadow light  
Shadow light
