

When I'm With You

STRFKR

Your sullen face was almost frozen in time
Said all your secrets could surely be mine
And all that I wanted was already alive
What does it mean then to be yourself
While they all hide in comfort you wouldn't know

I hear your call
Standing alone
I know you well
Demian

I become a devil
When I'm with you
Dance around my shadow
And let it through
I become a devil
When I'm with you
Dance around my shadow
And let it through
When I'm with you
When I'm with you
When I'm with you
When I'm with you, when I'm with you

You knew all along it was only half of the world
Said all your secrets clearer in time
And all that I needed was inside all along
What does it mean then to be yourself

I hear your call
Demian

I become a devil
When I'm with you
Dance around my shadow
And let it through
I become a devil
When I'm with you
Dance around my shadow
And let it through
When I'm with you
When I'm with you
When I'm with you
When I'm with you, when I'm with you

I become a devil
When I'm with you
Dance around my shadow
And let it through
I become a devil
When I'm with you
Dance around my shadow
And let it through
When I'm with you
When I'm with you
When I'm with you
When I'm with you, when I'm with you
