The Promise

Strike Anywhere

This Is America yeah it's true but everything else is false that was taught to me and you but I try to sort it out I'll try to sort it out with you

Did you promise the world that you'd change it? Sounds like the way that I feel One brick thrown, one vote alone won't take back everything they steal

we'll take back everything they steal

This Is America yeah it's true but everything else is false that was taught to me and you but I try to sort it out I'll try to sort it out

Shake It Up Shake me 'til I wake from the coma All the distance distorted and lonely too so out of the target so out of the target I'm pushing you

Promised the world that you'd change it Sounds like the way that I feel One brick thrown, One vote alone won't take back everything they steal

everything they steal

We're all walking forward

For every treaty broken: annihilation tokens for every treaty broken we'll take back everything they steal
