

# Head First

Striker

Fame and fortune are what I'm after  
I won't let the fear hold me back  
When all I hear is their laughter  
I let it fade into the black

Woah  
Sometimes it feels like I'm falling behind!  
Woah  
But I know this is the place, this is the time...

I'm going  
Head first  
There's only one way to go  
Head first into the night  
I'm going  
Head first  
There's only one way to go  
To go

There's a few things I never question  
And I'll never break, I'll never bend  
And there's nothing I wouldn't give up  
To see it through to the end!

Woah  
Sometimes it feels like I'm falling behind!  
Woah  
But I know this is the place this is the time!

I'm going  
Head first  
There's only one way to go  
Head first into the night  
I'm going  
Head first  
There's only one way to go  
To go  
Head first  
There's only one way to go  
Head first into the night  
I'm going  
Head first  
There's only one way to go...

I'm going  
Head first  
There's only one way to go  
Head first into the night  
I'm going  
Head first  
There's only one way to go  
To go  
Head first  
There's only one way to go  
Head first into the night  
I'm going  
Head first

There's only one way to go...

There's only one way to go  
'Cause that's all that I know  
It's the only way to go...
