On the Run

Striker

Switching to overdrive
Starting to feel alive
Not everyone can see
Taking it to the edge
Say the words that are never said
You have to believe

Faster than time on the wings of the desire
Follow me into the fire

There's no time to lose
Forever isn't long enough
In my position of power

Racing again tonight
To the dawn of the morning light
There's just no other way
Making it to the end
Where the test just begins
Hey don't be afraid

Faster than time on the wings of the desire
Follow me into the fire

There's no time to lose
Forever isn't long enough
In my position of power

Nothing can stop me

Faster than time on the wings of the desire
Follow me into the fire

There's no time to lose
(No time)
Forever isn't long enough
In my position of power
My position of power
